Annette posted:

When our loved ones fall asleep in death it can be very devastating. When we think about how certain species of trees can live over 100 + years. We may wonder why we as humans only have only an expectant life span of 70 or perhaps 80 years. Romans 5:12 explains why this is so. Isaiah 25:8 tells us that his his due time, Almighty God will swallow up death forever. He will restore life to many who have fallen asleep in death.
